

FS&T: INFORMATION FOR ICFRM-16 AUTHORS

Only papers that have been presented at ICFRM-16 will be considered for publication. The Proceedings of ICFRM-16 will be published in two parts, in two journals:

- papers related to fusion technology will be included in *Fusion Science and Technology* (FS&T) at <http://fst.edmgr.com/>
- papers related to materials development and behavior will be included in *J. Nuclear Materials* (JNM) at <http://ees.elsevier.com/jnm/>.

Submission of a manuscript implies that it is not being simultaneously considered for publication elsewhere and that the authors have obtained the necessary publication rights.

All ICFRM-16 papers must be submitted electronically via the one of the two websites listed above: **FS&T papers should be submitted at <http://fst.edmgr.com/>.**

All papers will undergo a rigorous technical and editorial review in accordance with **FS&T** standards. Accepted papers will be published in a special issue of *Fusion Science & Technology* and must be prepared according to author instructions at <http://fst.edmgr.com/> and <http://www.ans.org/pubs/journals/fst/authors/>.

In addition to the requirements of the Journal, a completed Cover Page (described below) must accompany each manuscript.

Length of Papers: Invited Plenary and Invited Oral papers are limited to **eight** journal pages. Contributed papers (oral and poster) are limited to **six** journal pages. The manuscript (including the abstract and references) is limited to a maximum of 7000 words for the invited papers and 5000 words for the contributed papers. In calculating the number of words, the following equivalents should be used:

- Each table or figure of one-column width that occupies 1/4 pg counted as 200 words.
- Each table or figure of two-column width that occupies 1/2 pg counted as 400 words.
- Each equation is counted as 30 words per line.
- Each reference counted as 20 words.
- The above count takes into account space occupied by titles, authors' affiliation, etc., on the first page.

Submission of papers: Manuscripts should be prepared in single column, double-spaced format with 12 point font to facilitate review and editing. Paper submission will be electronic submission via the FS&T website located at <http://fst.edmgr.com/>. Authors must first register as an author in order to submit a manuscript. After selecting **Submit New Manuscript** on the **Author Main Menu**, authors will be taken to a new window with a drop down menu for **Choose Article Type** - select **ICFRM-16**. Please select this submittal type and then proceed as normal to follow the manuscript submittal directions. ICFRM-16 manuscripts must be received for review **no later than November 1, 2013**.

Cover page: The Abstract Log Number (16-xxx), Title, and Author list, as well as the name, complete postal address, and the e-mail address of the corresponding author (marked by an asterisk) should be included on the cover page of the manuscript.

Key words: Must supply up to 4 keywords for indexing purposes per the FS&T Author Instructions.

Manuscript Format: The manuscript should be prepared in accordance with FS&T regular journal instructions at <http://www.ans.org/pubs/journals/fst/authors/>. Make sure to follow specific ANS/FST reference style at http://www.ans.org/pubs/journals/fst/icfrm16/docs/ans_reference_list_style.pdf

Language: The language of the Conference and for the Proceedings is English. All papers must be written in English and the authors are responsible for correct English usage. Papers that have serious grammatical errors will be returned to the authors and may not be considered for publication if a grammatically revised version is not promptly resubmitted.

English correction policy: Authors have the primary responsibility for providing acceptable English. Papers with very low quality of English will be returned to the authors and may result in rejection of the paper.

Illustrations: Figures submitted electronically should be of sufficient quality and resolution to reproduce well in the journal. Figures with insufficient resolution will be noted. Only Black and White figures will be published in the printed copies of the special issue. Color figures will be available in the online version of the special issue.

Reviewed Papers: The Corresponding Author will be notified of the results of the technical and editorial review via the electronic submission system. Revised manuscripts must be prepared in accordance with the editor's and reviewer's recommendations as would any regular paper submitted to the Journal.

Copyright form: After acceptance, with final manuscript submission, authors will be asked to submit a completed Copyright Transfer Form or equivalent form. The copyright form can be found at http://www.ans.org/pubs/journals/fst/icfrm16/docs/copyright_form_icfrm16.pdf. Manuscripts cannot be published without this form.
